## Parent Authorized Signature for Technology Device

I want to thank all of our parents for already completing the Back To School First Day Packet online information that was sent out last week. In addition to that information, tomorrow (@curbside pickup) we will need your signature authorizing your child to use the device they are being issued.

## GoGuardian Parent Informational Letter

In this Tuesday Mail packet, I have included information about our new partnership with GoGuardian. GoGuardian is a remote web-filtering security platform designed to keep our students safe when operating their device online away from school. Please see the attached letter for more information.

## AVS Distance Learning Informational Guide for Parents Slide-deck

Also in this week’s Tuesday Mail, we have put together a slide-deck for more information about AVS Distance Learning for our parents. Please take a moment to view the slides in our packet to learn more.

We continue to look forward to making this a great year for our students. The teachers have been working hard this summer organizing the scope and sequence of their distance learning curriculum, as well as building individual learning kits for each of their students which will be distributed tomorrow. Throughout our time in distance learning, we will be scheduling future student work drop-offs/pick-ups on campus.

Our teachers recognize the critical and important role each of our parents play in distance learning and know through this partnership we are committed to providing the best teaching and learning we can.

Thanks,  
Mr. Reno
