

# RENO REPORT

9/1/20

Dear AVS Parents,

One of the challenges all school districts are facing in distance learning, including AVS is the challenge of what to do when your child's teacher is out ill and needs a substitute replacement teacher. In a typical year the teacher and our front office team would secure a substitute teacher. Within our current distance learning model things might look a little different if your child's teacher is out ill. We are in the process of internally developing best solutions for this ahead of any potential teacher absences, including creating our own distance learning substitute teacher pool. Prior to this system being finalized, you might just find Mr. Reno filling in and being your child's teacher!

Please see our most updated school calendar attached showing the addition of our January 4<sup>th</sup>, 2021 school day.

Mr. Reno

A Big Shout Out to our parents! THANKS FOR YOUR HELP in RETURNING PACKETS AND PICKING UP NEW ONES! The exchanging of packets is really an important piece as we collect students completed work and supply our students with new materials they will need for upcoming lessons. Thanks for your help!
